HOW TO MAKE ONE OF YOUR OWN

1. Spritz a shallow pan with water followed by a few sprays of your favorite colored spray inks.
2. Next, mist your dye catcher sheets with water and place in the pan to absorb the dye.
3. Lift sheet out and hang or lay flat to dry.
4. Repeat the above steps with three more sheets.
5. Once all sheets are dry, doodle on them with a metallic marker.
6. Pin all four sheets right sides together and stitch up the sides to create one long rectangle.
7. Fold short end up 3/4 of the way, right sides together, and stitch up the two folded short sides.
8. Turn pouch right side out and fold corners of flap in and down to form two triangles. Stitch in place.
9. Add a small piece of sticky back velcro to the inside bottom of flap & matching point on front side of pouch.
10. Glue an embellishment to front flap.

RECYCLE & REUSE - A PRETTY POUCH

.....

Create a fun and colorful recycled pouch using what you have in your very own laundry room.

.....

Take those discarded dye catcher sheets and use them in a whole new way. Trap colors that you choose to create beautiful patterns and then stitch these wonderful fiber papers together to make the cutest bags. Use them for birthday cards, goody bags, to hold your favorite art supplies, and more.
