

MEADOW LANDSCAPE – Gail Wild

12"x12" white silk handkerchief ironed to 13"x13" freezer paper

1 Apply water based washable resist to silk with rubber stamps to leave some silk showing & define negative space.

Most of resist will be applied already, only stamping 2 motifs on camera

2 Paint ombre sunrise background with Marabu Silk Paint from jar using golden, tangerine, reseda, leaf green with large sumi brush and water. Spray highlights of Marabu Fashion Spray in flamingo.

Will need trash to dispose of paper towels

3 Texture background using alcohol (hand sanitizer) and stamps. Spread alcohol on tray, coat hot glue gun scribbles stamp and lay onto wet paint. Lift off to reveal cloud like texture. Ditto rubber stamp.

Place label over hand sani in pump container brand name?

4 Add details in metallic Marabu Contours and Effects paint pens in gold, green, purple, mother of pearl. Rubber stamp lavender, grasses. Draw curves, dots and lines freehand.

This paint stays wet and will stick to whatever it touches

5 Explain finished piece is ironed to heat set paints, and washed to remove water-based resist from silk to leave soft usable hankie.

Will do this off set and provide finished display piece. It is beautiful to show the light coming through the translucent painted silk; if this is possible on camera.

Supply list

White Silk Handkerchief 12"x12"

Freezer paper 13"x13"
